MERN Stack Developer

office

- Work in The Online Learning Platform for Skill Development (OLPSD) Project in which MERN Stack used.
- Collaborated with seniors to optimize solution and delivering results for my project.

Projects

The Online Learning Platform for Skill Development (OLPSD) (03/2024 - 05/2024):

[Source Code](#)

The Online Learning Platform for Skill Development (OLPSD) is an innovative web-based application designed to empower users with access to an array of educational resources and courses aimed at honing their skills and expanding their knowledge across diverse domains. It has key features such as User Authentication, Course Catalog, Instructor Dashboard, Course Enrollment, Payment Gateway Report Generation. This project is developed in **MERN Stack**.

Skola - Course Management System (09/2023 - 12/2023):

[Source Code](#)

This project is developed in **Django** framework with robust features such as user-friendly interface, payment system, course filtration based on level, categories. Also, has admin panel for managing administrative tasks such as adding, updating, deleting courses. .
